

Rugged and stays put!

Fail-proof attachment. Bold personalization. Ultimate stability.

The **APEX Tabletop Mount** redefines AAC mounting with a revolutionary design that makes attaching and removing devices easier than ever. Built for **precision, durability, and personalization**, APEX sets a new standard in AAC positioning.

Small and compact!

Collapsed size – only
2¾" x 4 ½" x 21"

Footprint is only 1.45 sq. ft.

Revolutionary APEX Device Adapter & Mount Plate

Unlike traditional mounts, the fully visible interlock design prevents false locks, providing a secure, easy-to-engage attachment every time. Compared to competitive solutions, Apex is far easier and more fail-proof to use.

Unmatched personalization

AAC should be as unique as its users. The APEX Tabletop Mount comes in four vibrant colors, adding fun and personality while moving beyond the dull, clinical look of traditional mounts.

Precision-crafted for performance

CNC-machined from lightweight 6061 aluminum, APEX delivers exceptional durability in a collapsible, portable design, perfect for home, school, or therapy.

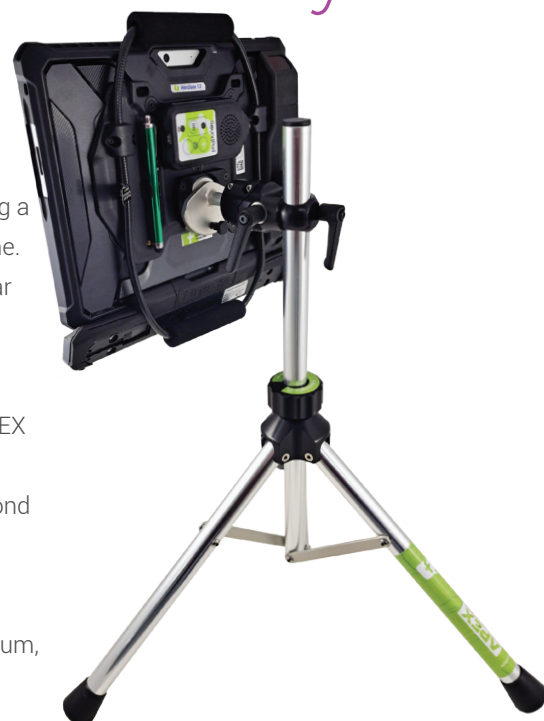

100% made in the USA

Proudly designed, CNC-machined, and made in the USA.

Broad compatibility

The APEX Tabletop Mount is also available with a Rehadapt-style device adapter, ensuring compatibility with common AAC mount plates for even greater versatility.

Experience the APEX Difference – fail-proof, easy to use, and designed to fit your personality.
